

OSCAR FORGER STROMES LOSS BY FIRE \$60,000

Camrose Fire Brigade Went to Assistance of Their Neighbors on Special Train

By Bulletin Leased Wire.
STROMES, Nov. 2.—The fire which broke out in Douglas street, general store at 1.30 a.m. and raged until 4.30 a.m. yesterday, destroyed five buildings with a loss estimated at \$60,000. The presence of an open lot in the middle of the main business block of the town prevented the making of the whole business district.

The following are the individual losses with insurance:
Douglas street, general store, loss \$47,000; insurance \$10,000.
Strome's Pharmacy, E. H. Hayman, loss \$700; insurance \$100.
Strome's Restaurant, H. C. Pondick, loss \$600; insurance \$400.
Strome's Hardware, C. C. Hite, loss \$300; insurance nil.

The Camrose fire department was rushed here on a special train, but the fire was not under control before their arrival.

The fire broke out in the building of Strome's Pharmacy, E. H. Hayman, loss \$700; insurance \$100.

The fire broke out in the building of Strome's Pharmacy, E. H. Hayman, loss \$700; insurance \$100.

SECOND BALLOTING IN ITALY DOES NOT CHANGE THE RESULT

By Bulletin Leased Wire.
ROME, Nov. 2.—The second ballot in the general elections was taken today to decide the undecided constituencies, and the returns indicate that the various parties will not be materially changed from the figures given out officially last week when the Liberals or Ministerialists elected 510 members.

A mob attacked the offices of the newspaper, the organ of the "blacks," smashing the windows and beating the staff, one of whom was injured.

The second ballot was characterized by greater excitement than the first on Sunday last. Bureaucrats participated enthusiastically, rushing about for cable and motors, distributing pamphlets and urging their followers to vote for the candidates favoring a woman suffrage. Several violent scenes occurred, as in more than one instance firearms were used.

Four of vacancies have been caused by recent judicial appointments.

Greatest interest centering in reading.

Two elections taking place in England, two in Scotland and one in Ireland.

By Bulletin Leased Wire.
LONDON, Nov. 2.—The United Kingdom is the theatre of a limited general election. There are five seats to be contested for the House of Commons, four of them caused by the recent judicial appointments and consequent changes in the cabinet. The government is a little anxious as it has to contend with a lot of difficult faction, both with what it has done and with what it has failed to do.

The Liberal candidate is A. H. Milner, member of the House of Commons, and has been supported by N. W. Howells and his numerous constituents. The Liberal Association's platform has been to "reform the law, but the tax reform and workers' competition have also been present.

FREE ELECTION IN PEEL TESTS PLACES PLACED TODAY

By Bulletin Leased Wire.
TORONTO, Nov. 2.—(Times) Intense election in Peel, in the House of Commons, is being taken tomorrow. The vacancy was caused by the retirement of Sam Charters to accept re-election to the county.

The Conservative Majority at the Last General Election Was Over 700

MANCHESTER COMMERCIAL INJURIES BUT IS ABLE TO GET TO ST. JOHN'S

By Bulletin Leased Wire.
MANCHESTER, Nov. 2.—The Manchester Commercial struck an iceberg passing through the Straits of Belle Isle early on Saturday morning and sustained injuries which, though severe, did not incapacitate her entirely. For she was subsequently able to reach St. John's, where she will be docked for overhauling and repairs.

The weather report from Point Amour on Saturday morning was quoted by the signal station at that place as "cloudy," no mention being made of fog, but at times fog falls quickly in the straits at this time of the year, especially when fog is fast in the vicinity, as may be seen from the fact that it was while fog was obscuring the straits that the Manchester Commercial met with the accident which compelled her to make for the port of St. John's.

J. R. Binning, managing director of the Port of St. John's, Montreal, stated that he had merely been informed that the Manchester Commercial was in the straits, and to the extent of her injuries, he had no knowledge. He was, however, confident that she was in no immediate danger of sinking.

\$100.00 = REWARD = \$100.00

To anyone who can show us where any of the Alberta Townsites selling at \$200 to \$4,000 per lot can show us any more actual value than lots in the original townsite of UNCAS which you can buy for **10 Days Only at \$25 each.**

They say a sucker is born every minute. It must be worse than that when there are people right here in Edmonton who pay such enormous prices, when they can get better value at only \$25, and easy terms at that. There are only a **Limited Number of Lots** to be had at \$25. And as soon as these are disposed of you will be unable to get another at this price, and by January 1st you will be glad of the chance to buy a lot in UNCAS at \$100.

Why? Listen!

We are putting in a large, modern gas drilling outfit and have let the contract for a 16-inch hole. We will go to any depth necessary to tap the gas that we know is in this locality. We pledge ourselves to spend more than \$15,000 for development work. We need \$2,500 more money at once, and will sell a few more lots to raise this amount.

A FEW INDISPUTABLE FACTS

The Grand Trunk Pacific Railway has a \$2,500.00 Depot at UNCAS and also an 80 car-capacity siding.

(Signed) N. B. WALTON,
Supt. G. T. P. Railway.

In regard to drilling a Gas Well on Section 22, Tp. 52, R. 21, W. 4th Meridian, would say that you have chosen as desirable a location as there is in the Edmonton district, and think there is no doubt whatever as to the presence of gas in that locality, there being gas struck in every direction from UNCAS. After a careful study of this field, would judge that you are safe in your investment.

(Sgd.) WILLISON & MEREDITH.

Per Oscar Willison,
Oil Well Contractors.

If gas in marketable quantities should be discovered close to the City it would undoubtedly prove a bonanza to the City of Edmonton.

(Signed) G. H. MAY.

We beg to advise you that we have completed the survey of the Townsite of UNCAS. The land contained within the limits of the townsite is HIGH and DRY and slopes gently towards the south and is quite SUITED FOR TOWNSITE PURPOSES.

(Signed) DRISCOLL & KNIGHT.
Per R. H. Knight.

UNCAS is located on the G. T. P. Ry., 23 miles from Edmonton.

Grand Trunk Pacific Ry. runs through our property at Uncas.

UNCAS has six passenger trains daily.

UNCAS has \$2,500.00 Railway Station completed.

UNCAS siding will accommodate 80 cars.

UNCAS is the depot for the villages of Coppie Hill, Glengarden and Cooking Lake.

UNCAS is shown on any map of Alberta, G. T. P. Folder or Waghorn's Guide.

UNCAS lies adjacent to Cooking Lake, which is Edmonton's most popular resort.

UNCAS has enormous deposits of Brick Clay.

UNCAS is in the centre of a fine agricultural, grain, stock-raising, poultry and dairying district.

UNCAS is located EXACTLY in the CENTRE of all the present GAS discoveries.

UNCAS is located in the Coal Belt.

UNCAS will be prospected and developed for Coal, Gas and Oil.

UNCAS will have a large grain elevator in the near future.

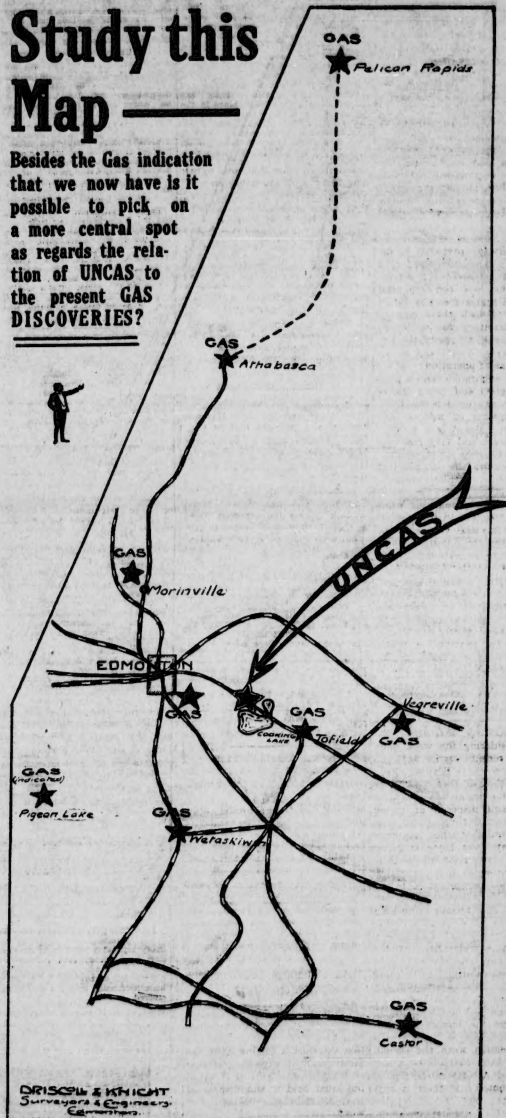

UNCAS is the only original townsite (as far as we know) that is being improved and developed by the owners.

UNCAS was surveyed and platted by Driscoll & Knight, who are one of the most reliable firms in Canada.

UNCAS Lots are High, Dry and Level.

Study this Map

Besides the Gas indication that we now have is it possible to pick on a more central spot as regards the relation of UNCAS to the present GAS DISCOVERIES?

AROUND THE CITY

(From Evening Edition.)

The headquarters round the city block are being taken down at this morning on instructions from the city building inspector's department. It is not expected that the construction of the building will be continued until, at least, the work is completed to be done is concrete.

Offices Moved to Factory.—The water, the Hamilton bridge, C. L. A. in room 319 Dominion Hotel, have been closed for the winter months, and the clerical staff has moved to the factory, Gallagher Plaza, South Side. The company will open new offices on the North side early in the spring.

New Telegraph Service.—The Canadian Pacific Telegraphs announce that they have made arrangements to give the citizens of Edmonton and the traveling public an all-night service. After the close of the receiving center on the main floor of the C.P.R. building, at 2 a.m., messages will be received at room 101. There is also an all-night service at the C.P.R. depot, Jasper avenue West and Ninth street.

POLICE MAKE RAID.—Inspector Behan and Detective McLean raided a house in Morris street last night, and as a result, Maga-Valencia was this morning arrested with keeping a bawdy house, and driven with being frequenters. The case was adjourned until Monday on the application of the police. Maga-Valencia was released in custody, and the men were allowed out on bail, varying from \$75 to \$250.

LOST BOND SUBSCRIPTION.—A subscription has been started to provide new instruments for the 14th floor, whose instruments were lost in the fire which destroyed the Globe Hotel and the Armoury. The cost of the instruments was estimated at \$10,000. The expense of replacing them will be too heavy to be borne by the members of the band.

Subscriptions may be paid to Captain, Lord-Cole, secretary, Major Harwood, Captain McLeod, Captain Moyle and Lieut. Bell.

EMPLOYING UNION MUSICIANS.—The secretary of the Edmonton Musicians' Association states that this morning he received notification that the Royal Theatre, on Normandy avenue, has engaged a union musician. The union men had some trouble with the picture theatre in the city during the past month or two, the managers of the theatre refusing to allow them to employ union men.

MAJOR IS SATISFIED.—Satisfaction is expressed by Major Short and the commissioners regarding the results of the city's application to the board of railway commissioners.

LEADERS OF TWO OPPOSING PARTIES IN ANCIENT COLONY OF NEW FOUNDLAND

The late of the Morris government still hangs in the balance, the "constituencies not yet reported" being strongly for Bond.

SIR EDWARD THOMAS.—The incident reported the government sustained in the election held this week, but from private advice received in Montreal it is said that the balance of the balance, the "constituencies not yet reported" being strongly for Bond.

SIR ROBERT GORD.—The incident reported the government sustained in the election held this week, but from private advice received in Montreal it is said that the balance of the balance, the "constituencies not yet reported" being strongly for Bond.

CARNegie HERO FUND
AWARDS MANY MEDALS

Mr. Dayton, whose husband lost his life trying to save a well digger at Viking, Minn., is Grand Silver Medal and Pension of \$25 Per Month.

Pittsburg, Pa., Nov. 1.—More medals in money and medals were made at the fall meeting of the Carnegie Hero Fund Commission yesterday afternoon, that at any other meeting since the organization of the commission in 1914. One hundred and twenty-four cases were considered this evening, 14 of which were acted on favorably. The commission awarded \$1,000 in cash, and 60 bronze medals, 25 silver and one gold. For home purchases and other worthy purposes \$72,250 was made in the form of bonds for which they recently subscribed. Many shares are being to have subscribed to the loan up to \$100.

It is said that the medals and pension have been reluctant to say for share in the 2000 cases since for which they recently subscribed. Many shares are being to have subscribed to the loan up to \$100.

Do Women Now Exercise Right They Have To Vote In Municipal Affairs?

This Is Canon Webb's Comment at Meeting Held to Consider Woman's Suffrage Question—Prof. Alexander Urges Extension of Franchise to Women, Declaring Combination Would Be Ideal

"How many women exercise the right they have to vote in municipal affairs?" asked Canon Webb at the meeting of which he was chairman, held Friday afternoon at All Saints' church, to discuss "Woman's Suffrage."

Advocate women seek for more privileges they should use those they have at present, said the chairman when concluding his remarks on the question in point.

Canon Webb, who is a supporter of the cause of woman's suffrage, inserted these remarks into his little round of chairs to Prof. W. H. Alexander, of the University of Alberta, who delivered the address of the afternoon on "Why Women Should Vote," before sitting down, however, the chairman read a note submitted to him by Miss Merrill, which came from the Alberta Women's Association, expressing their sympathy with the movement, but declaring that they think it too soon to take any active steps yet for the formation of a women's suffrage organization in Edmonton.

Mr. Alexander's talk in favor of the suffrage movement was interesting. He weighed arguments for and against the issue. Because man has the superior executive ability, as a rule, and woman the better initiative perception or gift of second sense, was one reason why the latter should have the vote, he asserted. The two elements would make an ideal combination in the government of the country.

The speaker was tendered a standing vote of thanks.

Mr. K. L. Hill, St. Paul, gave a brief but clever talk on the subject. Mr. Jos. Ashur spoke a few words.

Mr. Arthur Murphy, Mrs. V. C. Edwards and Mr. Geo. Fraser, who were booked to speak, were unavoidably absent.

On being requested to express her views, Mrs. Standen stated that she had come to listen, and thanked Mr. Alexander warmly for his address.

Slips of paper were passed around for the signatures of those willing to assist in the formation of a woman's suffrage organization. Literature was distributed.

The meeting, which was well attended, was concluded by singing the national anthem.

CAR SHORTAGES REPORTED.

MOORE JAW, Nov. 5.—At Dunbar, Texas and Heaton, on the Moore Jaw, Illinois branch of the C.N.R., there exists a serious shortage of cars. The shortage has been completed. The elevators are all filled and the farmers are unable to market their grain.

HAS BROKEN ALL AIR SPEED RECORDS.

Paris, Nov. 1.—Telegraphic reports to this city report Aviator Gilbert arriving at Ploeghe, Flanders, at 1:45 yesterday afternoon, having travelled a distance of over 450 miles in five hours and a quarter. It is claimed that he has broken all speed records.

ENCOUNTERED FOUR WATER-SPOUTS AT SEA

Strange Phenomenon Witnessed by Liner Cedric—First Spout 600 Feet High

London, Nov. 1.—A remarkable story of water spouts in mid-Atlantic is told by officers of the White Star liner Cedric, which arrived at Queenstown yesterday. The first they saw had the appearance of a black funnel-shaped streak. This was a few miles off the starboard bow in mid-Atlantic on the outward voyage from Queenstown. The water spout which was estimated to be six feet high and travelling at the rate of five miles an hour.

As the column faded away in the distance, it was succeeded by a smaller spout, which in turn was followed by a series of smaller ones, accompanied by violent lightning. Then came two more water spouts, bringing to an end the strange phenomenon which the officers while in sailing was the most remarkable they had ever witnessed.

RESERVE BANKS FOR NEW CURRENCY SYSTEM

Washington, Oct. 31.—The Senate banking and currency committee tonight tentatively agreed upon four regional reserve banks for the proposed new currency system, with a proviso that, after two years, the Federal reserve board may adopt as many additional banks as it deems necessary, not exceeding 12. The pending bill fixes the number at 12 and it has been understood that the administration would not consent to have it reduced below nine.

SPLENDID NEW CENTRAL Y. M. C. A. AT TORONTO

The new Y. M. C. A. on College street, Toronto, opened on Oct. 24th, was built at a cost of nearly three-quarters of a million dollars, through subscription of the citizens. It is one of the most modern buildings on the continent.

OBJECT TO ADVERTISEMENTS IN TELEPHONE DIRECTORY

Emphatic Protest Is Registered Against Insertion of Advertising Pages Through the New Telephone Directory—Unnecessary Turning of Pages Criticized by Business Men

Protests are being raised by business men regarding the changes made in the style of the new telephone directory. The admission of advertisements to the pages of the directory is condemned as a retrograde movement, while the reduction of the size of the type, using small thin letters instead of the large black-face capitals previously used in the directory is also complained of.

The matter was discussed at the Edmonton Jobbers' and Manufacturers' association and it was pointed out that advertisement interested between the list of subscribers amounted altogether to 22 pages of advertising. It is contended that this makes the book less convenient and involves considerable more time in searching for a desired number.

Cheques Held Back At Bank's Request

City Employees Were Not Handed Checks Until After Banks Closed

The month's pay checks to the city employees, which ordinarily would have been distributed on Friday, were held over until after the banks had closed Saturday. The reason given around the city hall Saturday was that the Imperial bank had asked for the checks to be held over, because two other large monthly payrolls had to be cashed this morning.

The city's monthly pay roll amounts to about \$27,000. When the checks were given out a rush was made on the city treasurer's department, which handles a large amount of cash from taxes. Some of the employees were able to get their checks cashed in this way, while others took them to various stores, where they do business and are sufficiently well-known to get the yellow slips converted into dollar bills.

Treatment of the Bolivia Natives Is Described As a Second Putumayo Scandal

Horrible Stories of Inhuman Whippings Reaches England—Alleged High Official of Republic Implicated—Grey Considers United States Policeman of the South American Continent

London, Nov. 1.—Diplomatic communications are now being exchanged between the British and American governments with reference to what is described as another Putumayo scandal. This time the scene of the alleged atrocities is in Northern Bolivia, and the charges implicate a highly placed official in the service of the republic.

There is reason to believe that the British foreign office has now noted the new series of atrocities which has broken in the first instance, has so far contented itself with referring the charges to Washington without committing itself to any expression of opinion or declaration of its intentions. Highly or wrongly the interference is drawn that Sir Edward Grey was not only reluctant to have the case to the American government the task of investigating the reported atrocities, but considered, especially in view of President Wilson's recent speeches, that it was the national business of the United States to act as policeman in the South and Central American continent.

The story of the alleged atrocities was brought to England by a young accountant, who in 1915 went from Liverpool to Iquitos, Peru, where he was engaged in trading in rubber. His business led him into relations with the Putumayo region, where the Putumayo atrocities were investigated by American commissioners in London. He later accepted a post with a company controlled by Arana and was sent to take charge of the firm's books at Iquitos, on the Putumayo river. During the three years in which he occupied that position he was an eye witness of many cruelties practiced in the course of the Putumayo inquiry. He left the Putumayo region with Sir Roger Casement's commission.

Going to Manure, he joined the Maderia Railway Co., which is constructing a line in North Bolivia, according to the terms of the treaty of Petropolis. His duties took him about 100 miles of construction and about 100 miles of travel.

A system of penance is prevalent in this Bolivia territory, worse than that in the Putumayo region. One case which came under his own personal observation was that of an Indian who was strapped around his neck with a flagged stick in his armpit, he turned his head around when the whip fell on his eye out. Another case was that of a Bolivian who was tied up in arms for five days in such a manner that he was unable to move. Blood in his urine existed for several days.

When he was taken down to be sent to the civil authorities for trial he was a charge of middleman, for which he was seized, it was found necessary to put him in a hospital out-ampute both his arms, one at the elbow and the other at the shoulder, the limbs having become gangrenous. This operation was performed by doctors.

The Maderia Manure Railway company is an American concern registered in the state of Maine.

Another atrocity he vouches for is a case in which a healthy rubber padrone who is the master or manager of natives in the wild rubber area, and five Indians suffering badly from beriberi and were unable to do their part in collecting rubber. For a short time they were left alone, but becoming impatient the manager ordered them to be taken out and put on a flat rock forming part of a rapid in the Zafiro river. They were too ill to move or help themselves in any way, being prostrated by the effects of beriberi. They were allowed to remain there until they died, the river, gradually rising, swept them away and they were never seen again.

A book is in course of preparation by the author of the stories and, as far as the publication is this country and in the British colonies. The author was in the country at the time Mr. Hardensburgh was making the investigations which resulted in the disclosures of the Putumayo scandal, and was well known to him. He possesses photos supporting his view that the exploitation of the Indian in the north regions of Bolivia is of such a nature as to warrant interference by some civilized government.

The accountant's charges in the first instance were taken up by the American Protection society, then laid before Sir Edward Grey, who at once contented himself with turning them over to Washington.

Washington, D.C., Nov. 1.—Unofficial reports have been received here of alleged outrages on Bolivian natives in the rubber country almost paralleling the Putumayo atrocities in Peru. Following the precedent set in the Putumayo case, officials here expect Great Britain will call on the United States to investigate, and in that case the facts will be examined by consular officers and a report made to London.
